TURBO 20 - 63

TURBO is the new pipe scraper patented by RITMO for pipes and fittings ranging from \varnothing 20 to 63 mm SDR 6 to 11. **TURBO** is simple and easy to use. This incredible pipe scraper can work in confined spaces substantially reducing working times, especially during repair operations. The rotating tool allows fast and precise scraping, without defects. Its blades also allow the perfect facing of the pipe ends which have been roughly cut due to a situation which makes the use of a pipe cutter difficult, like narrow spaces.

Six different sizes of the **TURBO** are available, according to the pipe size. **TURBO** has to be used with a cordless driver.

MODELS	WORKING RANGE	SDR	SCRAPING LENGTH	WEIGHT
